

An aerial photograph of a modern building's rooftop terrace. The terrace is covered with a dark grey membrane and features several large, rectangular, light-colored architectural screening units with circular ventilation fans. The building has a brick facade on the lower levels and large glass windows on the upper levels. The surrounding area includes other buildings and trees.

envisor®
PREMIER ROOFTOP SCREENING

An aerial photograph of a modern building with a rooftop terrace. The terrace is enclosed by a dark frame with large glass panels, and the interior is visible, showing outdoor furniture and plants. Above the terrace, there are several large, rectangular, light-colored panels with horizontal slats, which are the Envisor screen system. The building has a brick facade with many windows. The background shows other buildings and trees.

ENVISOR® — A PATENTED SCREEN SYSTEM WITH ZERO ROOFTOP DISRUPTION.

WITH 15+ PANEL STYLES, A CURATED
COLOR PALETTE, AND VERSATILE
MOUNTING OPTIONS — ENVISOR®
ADAPTS TO YOUR VISION.

MULTIPLE PANEL PROFILES. ONE SYSTEM.

From Idea to Installation

CUSTOM-ENGINEERED AND DELIVERED

Every Envvisor® system is custom and delivered as a complete solution—designed, built, and supported by CityScapes from start to finish.

- TAILORED ENGINEERING
- PRECISION IN-HOUSE MANUFACTURING
- ORGANIZED, READY-TO-INSTALL SHIPMENTS
- OPTIONAL PROFESSIONAL INSTALLATION
- FULL PROJECT SUPPORT THROUGHOUT

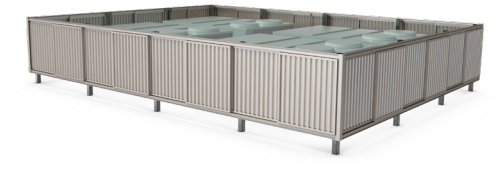

THOUGHTFULLY CRAFTED OPTIONS, FULLY TAILORED TO YOUR SPECS

DURABILITY MEETS CREATIVITY AND CUSTOMIZATION

- Composition: .187" acrylic-capped ABS – tough and lightweight
- UV-Resistant: Maintains integrity under sun exposure
- Hygienic: Antimicrobial and anti-fungal surface protection
- Durable: Engineered for high-performance environments

54% OPEN AIRFLOW AT 6" SPACING

STANDARD LOUVER SPACING IS 6", OFFERING OPTIMAL VENTILATION WHILE MAINTAINING CODE COMPLIANCE.

REINFORCEMENTS AVAILABLE TO MEET MIAMI-DADE WIND LOAD REQUIREMENTS.

NEW!

Z-FIN ENVISOR®

PERFECT FOR TOUGH SPECS, MODERN AESTHETICS, AND AIRFLOW-CRITICAL APPLICATIONS

Meet the Z-Fin Envisor® system—our latest innovation in rooftop screening. This upgraded system brings modern aesthetics, code-compliant airflow, and extreme durability into one elegant solution.

SYSTEM HIGHLIGHTS:

- .090" PREMIUM EXTRUDED ALUMINUM LOUVERS
- POST-MOUNTED SYSTEMS ONLY
- DURABLE, POWDER-COATED FINISH
- ENGINEERED FOR WIND AND WEATHER

Effortless Access. Uncompromising Compliance.

Envisor® is engineered to satisfy even the most stringent rooftop screening codes—without sacrificing serviceability. Our smart sliding system provides seamless access to HVAC equipment, reducing maintenance time and eliminating the need for costly removal or roof disruption.
