Attractive, code-compliant and long lasting, Envisor equipment screens offer affordable, elegant, customized screening solutions that blend into the overall design, all with no rooftop penetration. Our patented roof screen system provides practical solutions for municipal screening requirements of HVAC units, chillers, air handlers, power exhausts, roof stacks and communication equipment. You name it, we can screen it!

- Zero Rooftop Penetration
- ABS or Metal
- Sliding Panels for Easy Service Access

THE LEADING ROOF SCREEN CHOICE OF ARCHITECTS, BUILDING OWNERS AND CONTRACTORS FOR MORE THAN 20 YEARS.

COMMERCIAL OFFICE SPACE
- 52” Louver panel with Band style top trim
- Color: Almond

CHURCH OFFICE
- 52” Louver panel with Cove top trim
- Color: Custom color match

NATIONAL RETAILER
- 70” Louver panel with Step 2 top trim
- Color: Alabaster

THE COMPLETE SOLUTION
We get it. You’re busy. We want you to be able to focus on the parts of your project that matter most to you. That’s why we provide each customer with a project manager — a single point of contact. Tell us what you need and we’ll coordinate everything from design and engineering to manufacturing and installation so you can spend your time on more important things.

COMMERCIAL OFFICE SPACE • 52” Louver panel with Band style top trim • Color: Almond

CHURCH OFFICE • 52” Louver panel with Cove top trim • Color: Custom color match

NATIONAL RETAILER • 70” Louver panel with Step 2 top trim • Color: Alabaster
DESIGN OPTIONS

Envisor screens are the perfect alternative to parapet walls and they satisfy even the strictest screening code requirements. Both styles feature our patented attachment method, which secures our screens directly to the equipment with no rooftop penetration. Post mounted option is also available. Screen heights are available to shield virtually anything you desire.

PANEL STYLES

Panels are available in ten standard styles, allowing you to match or coordinate with the building design. The panels are constructed of thermoformed, high-impact ABS with a co-extruded UV protective layer on both sides or choose one of our metal series options in a variety of thicknesses and finishes. The panels are held firmly in place using a rust-free, double tracked aluminum rail system. This enables the panels to slide side-to-side for easy access to the unit during servicing and maintenance.

**Don’t see a panel that fits your project?**
Tell us and we’ll make one that you design. (Mold fee may apply)
**TOP TRIM STYLES**

OPTIONAL — Decorative top trim options offer the flexibility to further customize the elegant appearance of the screens by picking up building design elements and incorporating those details into the screen. Although optional, they offer one more way to make screens part of the design, not part of the problem. *Prices vary by style.*

![Top Trim Styles](image)

**COLORS**

Our designer colors complement most architectural applications, but don’t let standard colors limit your creativity. We have the ability to match any cross-referenced color specifications. Send us samples to match. We’ve even matched a color to a rock! Colors are approximations. Please call for actual samples.

![Color Swatches](image)

*Need a custom color? Provide a Sherwin Williams or PMS code and we can color match.*

Speak to a project manager about our Envisor accessories, including lighting kits and more.
CUSTOM SOLUTIONS

Envisor equipment screens can be manufactured in a limitless combination of shapes and configurations to help reduce cost, add to the aesthetics of a building or both. Let us design one for you! Just tell us the equipment manufacturer, the model numbers and any special requirements you might have. *Additional costs may apply.*
